Skills

Programming: Java, Python, C

Frontend: HTML

Backend: Java

Database: MySQL

Core: Operating Systems, DSA

Projects

Smart Water Monitoring and Automatic Management System

1 Week

Technology: Smart Monitoring System

- Developed a smart water monitoring system to monitor water levels and improve efficient water usage.
- Designed an automatic management mechanism to reduce water wastage through timely monitoring and control.
- Focused on creating a simple and user-friendly system for efficient water resource management.

Experiences

Fresher

- Currently seeking opportunities to apply programming, problem-solving, and software development skills.
- Strengthening practical knowledge in **Java, Python, C, DSA, MySQL, and Operating Systems**.

Achievements

- Maintained a strong academic record with a **CGPA of 7.8** in B.E. Computer Science and Engineering (Data Science).
- Developed a practical **Smart Water Monitoring and Automatic Management System** project.

Education

B.E. Computer Science and Engineering (Data Science)

2026-2029

AIT, Chikkamagaluru, Karnataka

CGPA: 7.8

PUC

2024-2026

Times, Hassan, Karnataka

CGPA: 8.1

10th

2023-2024

BGS, Hassan, Karnataka

CGPA: 9.4
